# GENTRY

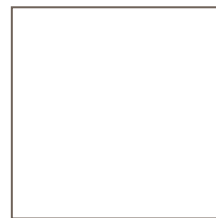

## Series 5400 Windows

The Gentry Series is one of the most comprehensive vinyl window lines available today. It offers a wide selection of styles — including horizontal sliding, single hung, double hung, casement, awning, picture, bay, and bow windows — designed to accommodate either the standard 3/4" dual glazing or the optional 1-1/8" triple glazing. With four frame mounting options — 1" Set Back Nail-On Frame, 1-3/8" Set Back Nail-On Frame, Block Frame, and Flush Fin Frame — the Gentry Series provides versatile solutions for both new construction and replacement projects.

Choice of these popular finishes with matching hardware keep lead times to a minimum.

## GENTRY SERIES 5400 Hinged Window Configurations

---

Butt hinges and multi point hardware are standard for awning and casement windows. Both window styles feature nesting hardware that offers a smooth operation, more contemporary and integrated look so that the folding handle recesses in the operator cover. 3-1/4" width frame with 1" dual glazing standard and Low E glass is standard in all of our products or upgrade to our Extreme Low E glass. Several decorative glass options are also available to enhance the decor and design of your home. 1-1/8" overall triple glazed option available.

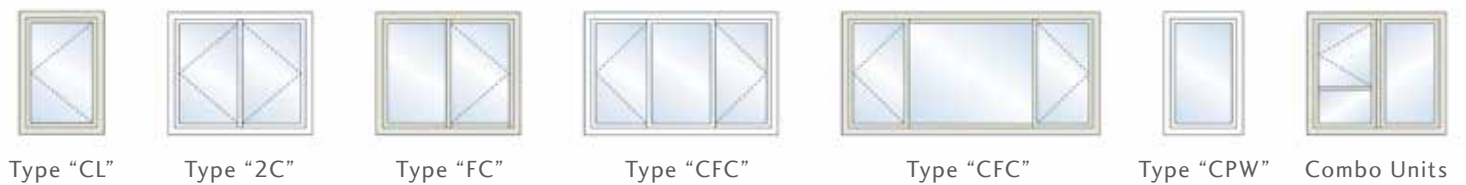

### Awning

Hung horizontally, hinged on top and swings outward, providing optimal ventilation and constant airflow with protection from the elements. Several configurations are available for architectural enhancements to your home.

### Casement

Hinged on the side, swings outward like a door, providing excellent air circulation. The sightlines are architecturally appealing for any style of home.

## FRAME TYPES FOR EVERY PROJECT

1" Nail-On Frame

1 3/8" Nail-On Frame

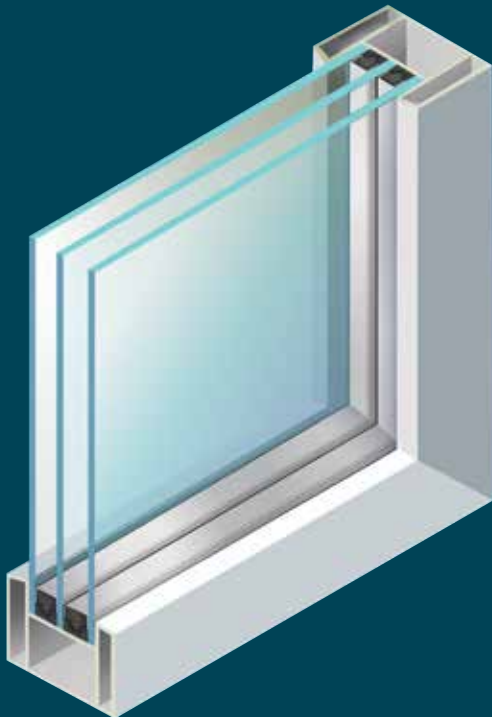

Block Frame

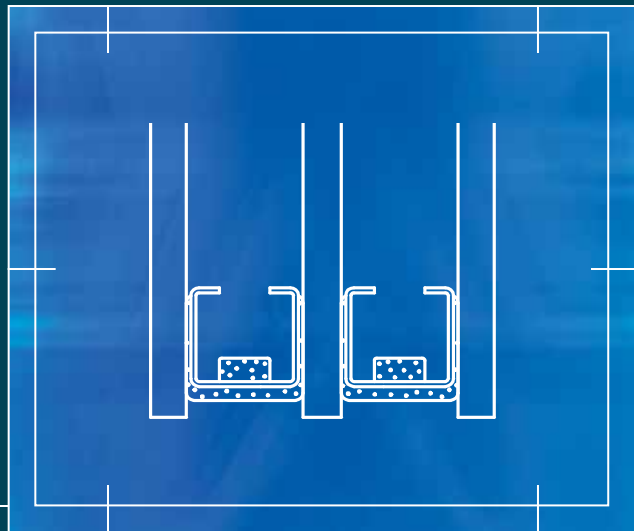

Flush-Fin Frame (Retrofit)

### TRIPLE GLAZED DESIGN

- 3 pieces of glass in the insulated unit
- 2 pieces of High Performance Low E Glass
- Optional number 6 surface Low E Glass

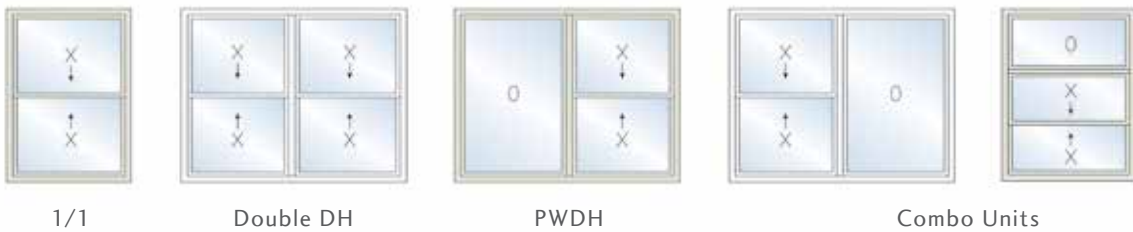

## GENTRY SERIES 5400 Double Hung Configurations

---

- Even sight lines.
- Both vents tilt-in for ease of cleaning.
- Low-profile latch integrated into double walled pull rail for a clean modern look.
- With the hold-open feature, it's easy to see when a window is left unlocked.
- Pull rail runs full length for easy operation.
- 3/4" dual standard glazing with choice of Low E or Extreme Low E glass. Optional 1-1/8" triple glazing.
- 3-1/4" Frame.

- Even sight lines.
- A sleek, low-profile latch with a “hold-open” feature that clearly indicates when a window is unlocked.
- Latch is integrated into a double walled full length pull rail with finished end caps for a clean modern look.
- Pull rail runs full length for easy operation.
- Oversized rollers with stainless steel axles ensure smooth window gliding and reduced operating force.
- Rollers have a 3 position height adjustment to custom fit the installation.
- 3/4” dual standard glazing with choice of Low E or Extreme Low E glass. Optional 1-1/8” triple glazing.
- 3-1/4” Frame.

## GENTRY SERIES 5400 Single Hung Configurations

Both side-load and tilt-in styles feature a sleek, low-profile latch seamlessly integrated into a double-walled pull rail, offering a clean, modern aesthetic that maintains uninterrupted sight lines. The hold-open feature allows for easy identification of unlatched windows, while the full-length pull rails ensure smooth and effortless operation.

Each unit comes standard with a 3-1/4" wide frame and 3/4" dual glazing, featuring energy-efficient Low E glass. For enhanced performance, upgrade to our Extreme Low E glass. A variety of decorative glass options are also available to complement your home's design and décor. For maximum insulation, a 1-1/8" overall triple-glazed option is offered.

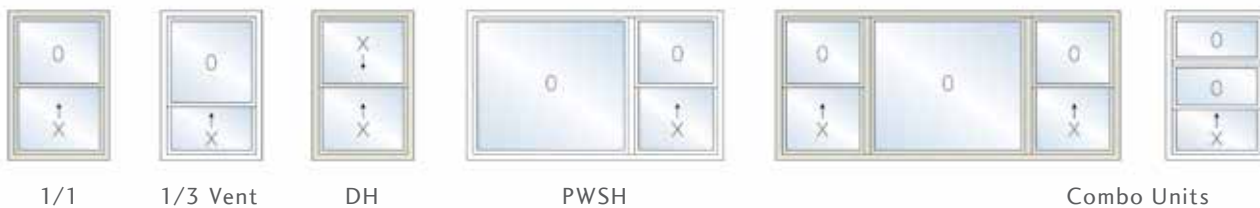

### Side-Load Single Hung

Features anti-lift sash blocks and oversized guides for easy vent removal and cleaning.

### Tilt-in Single Hung

Tilt-in design allows for easy cleaning and inverted balance with built in shoe for easy vent removal.

## Additional Glass Options

---

All windows and doors have standard dual glazing with choice of Low E or Extreme Low E glass, plus these additional glass options.

**LAMINATED GLASS:** Two pieces of glass with an inner layer of transparent plastic for safety and sound reduction.

**TEMPERED GLASS:** Strong, break-resistant safety glass. Breaks into small pieces when shattered.

**ARGON GAS:** An inert, non-toxic gas used in insulating glass units to reduce heat transfer.

**ENERGY SHIELD XTREME GLASS:** Blocks more heat and ultraviolet light.

**ILE GLASS:** A hard coat of Low E on the 4th surface.
